The Home Life Community Service Program is designed to inform members of issues that affect the well-being of individuals, families, and communities by providing opportunities and resources to meet and address needs through volunteering.

GFWC Partners are the organizations listed with whom GFWC has established a formal relationship and mutual understanding. Our partners offer unique and customized services: materials, speakers, kits and additional information designed specifically for GFWC clubs.

If you have had an opportunity to review the 2016-2018 GFWC Club Manual, you will notice that Home Life continues to have CANINE COMPANIONS FOR INDEPENDENCE and EASTERSEALS as our partners. They have added a section entitled “GFWC RESOURCES” where you will continue to locate the information from The Heart Truth and Inside Knowledge. The Heart Truth and Inside Knowledge are connected with governmental agencies and are not able to directly accept our donations or sign a formal Memorandum of Understanding (MOU) with us to be a partner. BUT they are outstanding resources to find information and initiatives that are beneficial to all interested. And there is a new PARTNER – St Jude Children’s Hospital

REPORTING – TIPS

- 1- **Quality not Quantity** – Ladies I am looking for how effective you were in your projects – How much did our project or program impact your communities?
What did your members or guest learned by the project or program?
- 2- **Creative Writing** – Ladies – Take your time in writing your reports and write them as if they were a story in a book – Make them interesting to read – add Humor
Make me feel as if I was there with you or if I want to go to your next program or project.
- 3- **PARTNERS** – As you know the reports have changed and there is a separate part for Partners – I am looking at those as this is our focus for the next 2 years – what creative ways did you find and develop to work or raise funds for our partners or to educate your members about our Partners
- 4 – **ASK ME** – If you don’t know what department it goes email me or email the other chairs.
- 5-**FOLLOW GUIDELINES** – Please read the guidelines on reporting before you do the report and then again after you complete the report prior to emailing – You do not want to be disqualified for a technicality after all your hard work.
